## **Purpose:**

Red Feather Development Group (Red Feather), a 501(c)(3) nonprofit organization, is soliciting Statements of Qualifications from appropriately licensed, insured, and bonded residential home repair contractors (hereafter referred to as “Offerors”) to provide health and safety-related home repairs for eligible Navajo homeowners under the Housing Assistance Fund (HAF) program, as administered by the Navajo Nation Division of Children and Family Services. This procurement will be conducted in accordance with 2 CFR 200.318–200.326, applicable federal requirements, and applicable Navajo Nation requirements.

This procurement is intended to establish an Indefinite Delivery / Indefinite Quantity (IDIQ) pool of qualified contractors for housing repair and construction services under the Navajo Nation Homeowner Assistance Fund (HAF). Selection into the pool does not guarantee the issuance of any work, any minimum quantity of work, or any funding.

Rolling Intake: This RFQ may remain open for the duration of the program, and Red Feather may add qualified contractors to the pool on a rolling basis. All Offerors will be evaluated using the same published evaluation criteria and documentation standards.

When multiple qualified contractors are available, Red Feather may prioritize contractors offering the best overall value, including cost efficiency.

## **Program Background:**

The HAF program was established under Section 3206 of the American Rescue Plan Act of 2021 to mitigate housing-related hardships caused by the COVID-19 pandemic. Red Feather has been awarded funding to manage case management and home repair services for approximately 48 households across the Navajo Nation. The anticipated timeframe for the work is August 2025 -September 2026. Red Feather will endeavor to ensure, in every way possible, that small, women-owned business enterprises and/or labor surplus area firms (collectively Disadvantaged Business Enterprises [DBE]) shall have every opportunity to participate in submitting proposals and providing services. Red Feather will not discriminate against any business based on race, color, religion, gender, national origin, age, or disability. Red Feather’s policy is that suppliers of goods or services adhere to a policy of equal employment opportunity and demonstrate an affirmative effort to recruit, hire, and promote regardless of race, color, religion, gender, national origin, age, or disability.

Procurement under this RFQ will be conducted in accordance with 2 CFR 200.318–200.326 and applicable Navajo Nation procurement requirements.

Contractors selected under this RFQ will be treated as vendors/contractors (not subrecipients) and will be procured to perform specific repair and construction services under task orders issued by Red Feather.

Work will be assigned through project-specific task orders based on program need, contractor availability, geographic service area, capacity, performance history, and cost efficiency.

This procurement will result in a pool of qualified contractors eligible to receive project-specific task orders. Task orders will be issued based on program need and will be assigned using a documented method to ensure fairness, timely delivery of services, and cost reasonableness. Selection into the contractor pool does not guarantee the issuance of any work.

## **Organizational History:**

Founded in 1995, Red Feather Development Group (Red Feather) is a 501(c)3 nonprofit organization whose mission is to partner with Indigenous communities to develop and implement lasting and impactful housing solutions. Red

Feather works closely with government officials, community members, housing professionals, and volunteers within each community to create and implement these programs. The organization has successfully managed numerous private, corporate, academic, and federal grants.

## **Scope of Work**

Specific scopes of work will be issued through individual task orders. Task orders may include one or more repair activities, and each task order will include a defined scope, location, timeline, and pricing basis. Contractors selected under this RFQ will not be guaranteed any minimum number of projects or any minimum dollar value of work.

Offerors will provide critical home repairs, including but not limited to roofing, windows, doors, HVAC, plumbing, ADA accessibility modifications, and electrical systems. All work performed under this RFQ must directly support home habitability, health and safety, energy efficiency, or the reasonable addition of habitable space to address overcrowding, and must be consistent with the U.S. Department of the Treasury Homeowner Assistance Fund (HAF) Guidance and the Navajo Nation HAF Housing Plan. Each project must be scoped, priced, and completed in alignment with the 2 CFR 200 procurement and construction standards. Offerors must submit detailed, itemized cost estimates. Red Feather Development Group may evaluate proposed pricing for reasonableness using nationally recognized construction cost data (e.g., RS Means, Craftsman) and other relevant benchmarks. Red Feather's initial programmatic goal is to complete approximately 48 homes. The initial budget anticipated for task-order construction labor and materials is \$2,500,000.00. Red Feather anticipates approving multiple Offerors for inclusion in the contractor pool under this RFQ.

## **Pricing Basis**

Contractor estimates must be reasonable. Red Feather will evaluate cost reasonableness using RSMMeans (or equivalent). The maximum allowable pricing is 1.30 times the applicable cost book pricing unless an exception is approved in writing.

## **Contractor Responsibilities**

Contractors selected under this RFQ must comply with all requirements contained in the subcontract agreement and all applicable federal, tribal, and local requirements. Contractors must be capable of completing assigned task orders in accordance with required timelines, workmanship standards, inspection requirements, and documentation/invoicing procedures established by Red Feather.

## **Environmental and Cultural Compliance**

Environmental or cultural review will be required only if project characteristics trigger applicable federal or Navajo Nation thresholds. Routine home repairs and improvements that do not involve ground disturbance, expansion beyond approved footprints, or impacts to cultural resources may proceed upon written authorization from Red Feather Development Group without additional environmental or historic review.

## **Cost Reasonableness and Allowable Costs**

All proposed costs must be reasonable, necessary, and allowable in accordance with 2 CFR Part 200. Red Feather Development Group reserves the right to disallow, adjust, or negotiate any proposed costs that are determined to be unreasonable, unsupported, or inconsistent with program requirements.

## **Changes to Scope of Work**

All work shall be performed in accordance with a Red Feather-approved scope of work. Any changes to the scope, pricing, or project conditions must be approved in writing by Red Feather Development Group prior to implementation. Unauthorized work or costs incurred without written approval are not eligible for reimbursement.

## Service Territory:

Entire Navajo Nation, including all five Agencies and associated Chapters, including but not limited to Western, Chinle, Eastern, Fort Defiance, and Northern Agencies, and Navajo/Hopi Partitioned Lands.

## Compliance With Federal Requirements:

Contractors must comply with all applicable Treasury HAF statutes, regulations, guidance, and FAQs, as amended, including requirements related to eligible activities, cost reasonableness, documentation, reporting, and record retention.
